

CSE 300 Online on Tikz and Beamer

Your roll

July 20, 2019

Table of Contents

1 Introduction

2 An Example of Literature Review

3 Flowchart

Beamer is more useful than powerpoint for many reasons:

- Consistent typesetting everywhere

Beamer is more useful than powerpoint for many reasons:

- Consistent typesetting everywhere
- Easy math and equations

Beamer is more useful than powerpoint for many reasons:

- Consistent typesetting everywhere
- Easy math and equations
- Easy plotting of graphs

Summary of the relevant papers can be shown in presentation in elegant way using \LaTeX . Here is an example.

Soliman, Hikal, Sakr; 2012

A comparative performance evaluation of intrusion detection techniques for hierarchical wireless sensor networks

- This paper evaluates and compares the most prominent anomaly-based IDS systems for hierarchical WSNs and identifying their strengths and weaknesses.
- For each IDS, the architecture and the related functionality are briefly introduced, discussed, and compared, focusing on both the operational strengths and weakness.

A Flowchart

Flowchart of finding whether an input number is even or odd is shown below:
